

Bernal, Buenos Aires. November 27, 2019

The University Extension Project "Raise your hand. The right to experience the intersubjective space" calls to participate at the **15th Model United Nations of the National University of Quilmes** (known in Spanish as MONUUNQ) addressed to students, teachers and authorities of elementary schools, middle schools, high schools and universities. The role play will be held on Thursday 27th and Friday 28th, August 2020, in Bernal (Saézn Peña St. 352). Registration is free of charge. The activity has the cooperation of the International Center for the Promotion of Human Rights (CIPDH-UNESCO) and it is supported by the UNQ's Bachelor degree in International Trade Administration.

The Model United Nations is a staging of the international relationship system inside United Nations sphere of action, with its structure, protocol and real performance. Each participant will play the role of an international diplomat, from a specific country, considering its foreign policy. Throughout the meetings, students will address global issues adopting a critical and holistic point of view during the debates, enabling them to strengthen their position without losing sight of the collective belonging. We believe that the coexistence of plurality and diversity fosters negotiation skills development and consensus, creating opportunities for the development of several skills such as oratory, leadership, and conflict resolution by peaceful means, among others.

The 2020 edition will have, for the second consecutive year, the transversal axis "Crime prevention and criminal justice". The four commissions will address this theme, pursuing a real transference of knowledge and values in human rights education, at the different levels of participation of the educative community.

Kind regards,

Team of the Project "Raise your hand"
